Note: Design and specification subject to change without notice.

# HD Imaging

50/71/80kW generator

300/400kHU X-ray tube

100  $\mu$ m/139  $\mu$ m detector

Fluoro mode configurable with 65kW generator and dynaic FPD

## Wireless Flat Panel Detector

Large FOV, easily meets various clinical demands. Wireless detector, flexible application, support WiFi image transmission. Built-in charging port in bucky, fast charging and long battery life.

## Low Dose Control

AEC function available for better dose control. DAP display function, real-time dose display of each exposure. Removable grid, dedicated for pediatric applications and large body size low dose radiography.

## Line Noise Elimination Technology

The line noise is eliminated while no image detail loss, keeping high edge resolution with no extra artifact generated.

## Intelligent Communication Technology

Patent technology to improve transmission stability under complex electromagnetic environment.

# Efficient Workflow

## Multifunctional Mechanics

Large longitudinal moving range, easy dealing with special positions radiography.  
Precision electric control, supporting simultaneous multi-axial moving.

## Auto Tracking

The tube and detector automatically track in both vertical and horizontal directions, improving positioning workflow.

## Table-side Touch Screen Control

Facilitates workflow.

- Patient information
- Positioning tutorials
- Mechanical position
- Image preview
- APR
- Portrait/Landscape adaptive display
- Exposure parameter settings

## Wireless Flat Panel Detector

Optional second FPD brings high efficiency by reducing the need to switch panel between different applications, making the imaging process simple and fast.

## Global Service Caring for You

### 24 Hours Online Support

Quick response and remote technical support, on-line trouble shooting, spare parts inventory and quick delivery.

### Free Software Upgrade

Fully self-developed acquisition platform, free lifetime software upgrade, always providing you the excellent experience.

### Professional Team

Wandong imaging products have been installed in over 90 countries, hundreds of distributors and authorized service partners are ready to provide professional service.

### Regular Maintenance

Regular maintenance by experienced and qualified engineer, guarantees the stable operation, prevents major failures, and extends the equipment life.
